Pashto — Native

NOOR ULLAH

FULL STACK RUBY ON RAILS DEVELOPER • WEB & MOBILE (TURBO NATIVE)

PROFILE

Ruby on Rails full-stack developer with 3+ years at ITSHIFTS Technology, shipping production websites and native mobile apps (Turbo Native / Hotwire Native) across travel, e-commerce, logistics, security, and workforce-management platforms. End-to-end owner of database schema, background job processing, and third-party API integrations, through to responsive frontends and native mobile shells for iOS and Android. Currently maintains a portfolio of 10+ live platforms, with new builds in progress.

EXPERIENCE

Full Stack Rails & Mobile App Developer 2023 – Present

ITSHIFTS Technology | Islamabad, Pakistan

- Build and maintain **Travolyo**, a full-featured B2C travel booking platform covering hotels, flights, activities, and airport transfers, with an installable web app.
- Develop **Travolyo B2B**, a wholesale booking portal for travel agents and DMCs worldwide, including a companion mobile app for iOS and Android.
- Built **Umrah Travolyo, Aasan Parwaz, and Masrawe** — dedicated booking and e-commerce platforms for Umrah travel, Afghanistan/Pakistan flights, and retail.
- Designed and built **MisrPrime** end-to-end — an e-commerce website and native mobile app (iOS & Android) built in Rails with Turbo Native; sole developer on the mobile build.
- Built **Aux Logistics, ShiftsTrack & ShiftTrack, ChoreHustler**, and marketing sites for RiskTrack, JK724 Security, and Auxilium Services.
- Integrate third-party REST APIs — flight/hotel supplier (GDS) feeds, payment gateways, and notification services.
- Implement background job processing with Sidekiq and Redis for confirmations, notifications, and data sync.
- Own the full stack: Rails backend, PostgreSQL/MySQL, Hotwire/Stimulus/Turbo frontend, and Turbo Native mobile shells.

SELECTED PROJECTS

TRAVEL & BOOKING

- **Travolyo** — B2C hotel, flight & activity booking platform travolyo.com
- **Travolyo B2B** — wholesale booking portal for travel agents travolyob2b.com
