

Noor Ullah

Full Stack Ruby on Rails Developer

noor102bs@gmail.com · +92 310 9508764 · Islamabad, Pakistan · [linkedin.com/in/your-handle] · github.com/noorullah-dev

available for freelance & contract work

SUMMARY

Ruby on Rails full stack developer with 3+ years of experience shipping production websites and Hotwire Native mobile apps across travel, logistics, security, and e-commerce. Comfortable across the stack — from database schema and REST APIs to responsive, production-ready frontends.

EXPERIENCE

Freelance / Contract — Full Stack Rails Developer [add start date] – Present

- **Travolyo** — full travel booking platform: hotels, flights, activities, and airport transfers, with an installable web app. (travolyo.com)
- **MisrPrime** — e-commerce website and native mobile app (iOS/Android), built end-to-end in Rails with Hotwire Native. My only mobile-app build to date. (misrprime.com)
- **Aux Logistics** — freight & courier booking site with an instant quote form and 24/7 operations. (auxlogistics.co.uk)
- **RiskTrack** — marketing website and backend REST APIs for a personal-safety app; the native mobile app itself was built by another team. (risktrack.co)

Also shipped production websites for Chore Hustler, ShiftTrack, Aasan Parwaz, Auxilium Services, JK724 Security, and others — spanning e-commerce, logistics, travel, and security.

SKILLS

Languages & frameworks

Ruby, Ruby on Rails, JavaScript, Stimulus JS, Hotwire, Hotwire Native, Turbo

Frontend

Tailwind CSS, Bootstrap, responsive UI/UX

Backend & data

PostgreSQL, MySQL, REST APIs, database optimisation, real-time features
